

A

- activities of daily living, 8
- advanced practice registered nurse (APRN)
 - competencies involving, 28, 30, 31, 33, 36, 37, 40, 43, 44, 45–46, 47–48, 49–50, 52–53, 54, 55, 56
 - Consensus Model for APRN Regulation, 23–24
- advocacy, 13, 17, 37, 39, 42, 54, 55
- assessment
 - competencies involving, 27–28
 - Standards of Practice, 27–28

B

- behavior, 41, 42

C

- caregivers, 8, 12, 32, 35, 37, 38–39
- certification
 - and registered nurses, 22–24
- chronic lung disease (CLD), 6
 - defined, 57
- Code of Ethics for Nurses With Interpretive Statements*, 12–16
 - competencies for, 5, 40, 53
 - provisions of, 12–16
- collaboration, 25
 - competencies involving, 44–46
 - Standards of Practice, 44–46
- communication, 21–22
 - competencies involving, 35, 42, 43–44, 46, 55
 - Standards of Practice, 43–44
- community education, 26
- community resources, 16, 35, 36, 37, 55
- consultation, 21, 35, 45, 48, 50
- consumer alliances, 39
- continuity of care, 37
- coordination of care
 - competencies involving, 36–37
 - Standards of Practice, 36–37
- costs, 36, 51, 54
- counseling, 38
- cultural empathy, 44
- culturally congruent practice
 - competencies involving, 41–43
 - Standards of Practice, 41–43
- culturally sensitive care, 10–11

cultural values and beliefs, 38

D

data assessment, 29, 37, 39, 51
data collection, 27, 49, 51
decision-making, 12, 15, 28, 35, 40, 41, 42, 43, 47, 52
delivery room, 21
desired outcomes, 35, 45, 54
developmental care, 7–8
 defined, 57
diagnosis
 competencies involving, 24, 29–30, 32, 34, 40
 Standards of Practice, 29–30
discharge planning, 16, 20
Doctor of Nursing Practice (DNP), 23, 24
Doctor of Philosophy (PhD), 23, 24

E

education
 to caregivers, 8, 37, 38–39
 to community hospitals, 39
 competencies involving, 8, 47–48
 to parents, 8, 16, 20–21, 26, 36
 and registered nurses, 22–24
 Standards of Practice, 47–48
electronic health records, 26
environmental health
 competencies involving, 55–56
 Standards of Practice, 55–56
environment and registered nurse, 8–9
ethics
 competencies involving, 40–41
 Standards of Practice, 40–41
evaluation
 competencies involving, 39–40
 Standards of Practice, 39–40
evidence-based care, 5
evidence-based discharge practices, 16
evidence-based nursing, 4, 17, 49
evidence-based practice, 17–18, 30, 31–32, 43, 49, 50, 53
evidence-based practice and research
 competencies involving, 48–50
 Standards of Practice, 48–50
expected outcomes, 29, 30, 31, 39, 40
extracorporeal membrane oxygenation (ECMO), 21

F

family-centered care, 9–10, 15, 37
feedback, 38, 45, 53, 54

G

genetic therapy, 25
graduate-level prepared registered nurses
 competencies involving, 28, 29–30, 33, 35, 37, 38–39, 40, 42–43, 44, 45–46, 47–48, 49–50,
 51–52, 54, 55, 56

H

health disparities, 15
health promotion, 8, 37–39
health teaching and health promotion
 competencies involving, 37–39
 Standards of Practice, 37–39

I

identity groups, 42
implementation
 competencies involving, 33–36
 Standards of Practice, 33–36
infant mortality, 2
informed consent/refusal, 41
informed decisions, 5
interprofessional activities, 35, 45–46
interprofessional teams, 30, 37, 41, 47, 51

L

leadership
 competencies involving, 46–47
 Standards of Practice, 46–47
life-support techniques, 21
low-birth-weight infant
 defined, 57

M

maternal health, 6
midwives, 3
multidisciplinary teams, 25

N

neonatal

- defined, 57

- neonatal abstinence syndrome (NAS), 25

- neonatal clinical nurse specialist (NCNS), 24

- neonatal intensive care unit (NICU), 4, 9–11, 15, 17, 18, 25, 26, 44, 50, 51

 - care, 12, 19, 20–21

 - defined, 57

- neonatal nurse practitioner (NNP), 23–24

neonatal nursing

- advocacy, 17

- code of ethics for nurses, 12–16

- continuous assessment, 6–7

- culturally sensitive care, 10–11

- definition and overview, 1–3

- developmental care, 7–8

- discharge planning, 16

- education, certification, and roles in, 22–24

- environment, 8–9

- evidence-based practice, 17–18

- family-centered care, 9–10

- future considerations, 24–26

- health promotion, 8

- history of, 3–4

- levels of care in, 19–22

- patient safety, 18–19

- practice characteristics of, 5–6

- practice environments, 19–22

- quality assurance, 17–18

- research, 19

- spiritual care, 11–12

- underlying assumptions of, 4–5

neonatal period

- defined, 1

- Neonatal Resuscitation Program (NRP), 21

- neonatology, 25

neutral thermal environment

- defined, 57

- Nurse Practice Act, 5

nursing

- levels of care in, 19–22

- practice environments, 19–22, 35, 55

nursing practice

- advocacy and, 5

- environment, 19–20, 35, 55

nursing sensitive quality indicators (NSQI), 17

O

outcomes identification

competencies involving, 31–33

desired, 35, 45, 54

expected, 29, 30, 31

and patient safety, 35

Standards of Practice, 30–31

P

parental care, 10

parental teaching, 8, 16, 20–21, 26, 36

parent–infant bonding, 13

patient centeredness, 17

patient safety, 18–19, 35

peer review, 51, 53

perinatal

defined, 57

hospice support, 10

regional centers, 21

risks, 6

toxicology screening protocols, 15

treatment, 24

placental function, 6

planning

Standards of Practice, 31–33

plan of care, 29, 31–32, 34, 35, 39, 46, 55

premature (preterm) infant

defined, 57

Premature Institute program, 4

problem-solving, 34

professional practice evaluation

competencies involving, 53–54

Standards of Practice, 53–54

psychosocial support, 9

Q

quality assurance, 17–18, 25

quality of practice

competencies involving, 50–53

R

- recruitment, 26
- referrals, 37
- registered nurses
 - and advocacy, 17
 - and certification, 22–24
 - and the Code of Ethics for Nurses, 12–16
 - Consensus Model for APRN Regulation, 23–24
 - core competencies of practice, 1, 2–3, 5–7
 - and culturally sensitive care, 10–11
 - developmental care by, 7–8
 - and discharge planning, 16
 - and education, 22–24
 - and environment, 8–9
 - and evidence-based practice, 17–18
 - and family-centered care, 9–10
 - and future considerations, 24–26
 - health promotion by, 8
 - and infant transport, 22
 - level of care by, 20–22
 - master’s-level preparation for, 23–24
 - and patient safety, 18–19
 - and practice environment, 19–22
 - and quality assurance, 17–18
 - and research, 19
 - and spiritual care, 11–12
 - training of, 22
- research, 19, 49, 50
- resource utilization
 - competencies involving, 54–55
 - Standards of Practice, 54–55
- respiratory distress syndrome (RDS)
 - defined, 57–58
- retention, 26

S

- skin-to-skin care
 - defined, 58
- sleep, 8
- spiritual care, 11–12
- Standards of Practice
 - assessment, 27–28
 - collaboration, 44–46
 - communication, 43–44
 - coordination of care, 36–37
 - culturally congruent practice, 41–43

diagnosis, 29–30
education, 47–48
environmental health, 55–56
ethics, 40–41
evaluation, 39–40
evidence-based practice and research, 48–50
health teaching and health promotion, 37–39
implementation, 33–36
leadership, 46–47
outcome identification, 30–31
planning, 31–33
professional practice evaluation, 53–54
quality of practice, 50–53
resource utilization, 54–55

T

therapeutic relationships, 33
thermoregulation, 8–9
training, 22
transport, infant, 22

V

values and beliefs, 27, 33, 38, 42

W

well-being, 34
